

MULEGUARD AI - FINANCIAL CRIME INTELLIGENCE REPORT

Generated on: 22 Aug 2026, 14:03:30 | Platform Version 1.0.0

1. Account Demographics

Account ID:	ACC-10293	Holder Name:	Aarav Sharma
Account Number:	XXXX XXXX 1029	IFSC Code:	XXXX0001234
Region / Location:	Madhya Pradesh / Indore	Account Age:	8 months

2. ML Risk Engine Scorecard

Mule Probability:	94.2%	Overall Risk Score:	94 / 100
Risk Classification:	SUSPICIOUS	Recommended Action:	Enhanced Due Diligence / Investigation

3. Behavioral Indicator Risk Scores

Risk Category	Component Score (0-100)
Behavior Risk	92
Transaction Risk	89
Network Risk	96
Velocity Risk	94
Location Risk	78

4. Explainable AI Factors (SHAP Insights)

Feature / Risk Factor	SHAP Contribution Value
Transaction Velocity	+0.31
Unique Senders	+0.26
Rapid Fund Movement	+0.22
Network Connectivity	+0.18
Amount Deviation	+0.14
New Beneficiaries	+0.11

5. Financial Crime Activity Explanation

The account demonstrates a high-volume pass-through pattern. It receives funds from multiple unrelated accounts and transfers a significant portion of those funds within a short period. The account's transaction velocity and network connectivity are substantially higher than its normal behavioral profile.

6. Flagged High-Risk Transactions (Recent Sample)
